AI Financial Coach Agent

- What it demonstrates:
  A personalized multi-agent financial advisor app that creates agents which can access user income, user spending, debt, etc (via any document) and has
    - debt analyzer agent
    - custom savings strategy agent
    - actionable budget advice
    - optimized debt payoff plans.
    - And more!
- Combines agent orchestration, tabular RAG, user data integration, LLM workflow, and live dashboarding.
